Account IT

Overview

Account-it Consulting Services, LLC is a trusted partner for comprehensive tax and accounting services based in Boynton Beach, Florida. The firm specializes in tax preparation and planning for both individuals and businesses, ensuring clients navigate the complexities of the tax system with confidence. They also provide QuickBooks Online services to assist business owners with seamless financial management solutions. The company prides itself on the extensive background and hands-on experience of its founder, Doug Cohen, who brings a wealth of knowledge from his career as a CFO and controller.

Company Details

Website: <https://account-it.net/>

Industry: Accounting and Tax Services

Business Model: Provides comprehensive tax and accounting services, including tax preparation and planning, QuickBooks services, and payroll services for individuals and small businesses.

Company Role: Service Provider

Year Founded: 2003

Legal Entity Type: LLC

Main Address: Boynton Beach, Florida 33437

Service Locations: Florida, Boynton Beach, Florida, South Florida

Alt Company Names: Account-it Consulting Services, LLC

Pitch

Account-it Consulting Services, LLC is your top-rated tax partner, committed to maximizing your returns and minimizing your stress. We offer the expertise of a founder with over 14 years of experience as a CFO and controller, providing valuable business insights that go beyond simple accounting. Our firm delivers professional, timely, and reliable solutions for all your tax, payroll, and IRS problem-resolution needs. Let us be your ultimate tax season relief so you can achieve your financial goals with confidence and personalized care.

Market & Customers

Buyers: individuals, businesses, brand-new businesses, businesses nearing retirement, small businesses with 1 to 10 employees

Customer Needs: Customers need to alleviate the stress and difficulty of managing their own complex tax returns and financial planning. They want to ensure they are tax compliant while legally reducing their tax liabilities and maximizing their after-tax income. Clients also require assistance with payroll to simplify the process and ensure adherence to all relevant laws, allowing them to focus on running their business. When faced with IRS issues, they need an efficient, discrete, and affordable expert to resolve problems and provide peace of mind.

Ideal Persona: Account-it Consulting Services, LLC caters to a diverse range of clients, primarily individuals and small businesses located in the Boynton Beach, Florida area. The ideal business client typically has 1 to 10 employees and can be at any stage, from a new startup to an established company nearing retirement. These clients are looking for an expert in tax preparation and planning to help them navigate financial complexities with confidence. They value a trusted partner who can provide comprehensive services, including QuickBooks management and payroll.

Industry Groupings: medical practices, law firms, real estate brokers, property management, internet sales, construction, restaurants, service industry, homeowners and condo associations

Channels: Online via website

Funnels: Contact form, Appointment scheduler, Newsletter signup, Client referrals

CTAs: Get started, Schedule Appointment, Contact us, Submit, Notify me, Make an Appointment

Suppliers: Box.com, Google, Rackspace, DialogTech, Wufoo.com, Sendgrid, Twilio, Plausible, Amazon Web Services, Yext, MailGun, Bright Local, TransUnion

Founding Story

Founder Doug Cohen started his own accounting practice in South Florida in 2003. His experience includes years of public accounting and 14 years as a CFO/Controller. This background allows the firm to provide the service and support of a highly qualified CFO and Controller on a part-time or interim basis, without the high overhead costs of larger firms.

Branding & Style

Writing Style: Professional, reassuring, and client-focused. The language is clear and accessible, aimed at explaining complex tax and accounting concepts to individuals and small business owners. The tone is expert and trustworthy, highlighting experience and reliability to build confidence and encourage inquiries.

Art Style: This image is a flat, monochromatic field of solid gray, devoid of any discernible art style, design aesthetic, or visual characteristics beyond its uniform color. There are no elements of composition, typography, or design language to analyze, as it presents a complete absence of graphical information or artistic intent.

Key People

Doug Cohen — Founder and CPA

Male

Founder of Account-it Consulting Services, LLC, with a career that includes over 14 years as a CFO and controller, as well as experience in public accounting. He is a CPA, a member of the AICPA, and a QuickBooks Certified ProAdvisor. His practice provides part-time or interim financial and accounting services, including basic accounting and bookkeeping.

Offerings

Estate, Gift & Trust Return Preparation (Tax Services)

Features: Ensures compliance for fiduciaries and beneficiaries. Part of the firm's comprehensive tax preparation offerings. Specialized tax preparation services for filing estate, gift, and trust returns.

Business Start-Up Services (Business Services)

Features: Provides a complete list of commonly overlooked deductions to help new businesses limit their tax liability.

Specialized tax planning and education services to assist start-ups. Helps new businesses navigate tax compliance and implement tax-saving strategies from the beginning.

Accounting & Bookkeeping (Business Services)

Features: Provided by a professional with 40 years of public accounting and CFO experience.

Basic accounting and bookkeeping services for smaller companies. Ensures financial records are accurately maintained by an experienced CPA.

Part-time/Interim CFO and Controller Services (Financial Consulting)

Features: Provides high-level financial and accounting support on an as-needed basis, avoiding the cost of a full-time executive.

Offers the expertise of a qualified CFO and Controller without the full-time salary. This service is for businesses needing strategic financial guidance and oversight.

QuickBooks Services (Business Services)

Features: Includes QuickBooks setup, training for employees, ongoing support for questions (QuickAnswers), and problem-solving services (QuickTuneup).

Expert assistance with QuickBooks to improve business efficiency and accuracy. The firm is a QuickBooks Certified ProAdvisor and helps clients leverage the software for financial management.

IRS Tax Problem Resolution (IRS Representation)

Features: Assistance with wage garnishments, bank levies, threatening letters, IRS audits, non-filing issues, liens, offers-in-compromise, and innocent spouse relief.

Helps individuals and businesses resolve tax problems with the IRS. The service is efficient, affordable, and discrete, aiming to end the stress caused by IRS issues.

Payroll Services (Business Services)

Features: Manages all payroll duties, monitors federal, state, and local tax laws, and ensures secure data handling and transmission.

Comprehensive payroll solutions for Florida businesses. Clients provide employee data, and the firm handles the rest, simplifying the process and ensuring compliance. Primarily for existing or transitioning tax clients.

Tax Preparation & Planning (Tax Services)

Features: Covers individual, business, gift & estate, partnership, corporate, and out-of-state returns. Includes tax planning to minimize liability and maximize after-tax income.

Professional tax preparation services for individuals and businesses. The service aims to simplify the complex tax code, identify overlooked deductions and credits, and ensure compliance.

Bee Cave Drilling

Overview

Since its inception in 1980, Bee Cave Drilling, a family-owned and operated company, has been dedicated to providing exemplary well-drilling services to the Texas Hill Country and its surrounding regions. The company serves a wide range of clients, encompassing both residential and commercial sectors, approaching each project with the same level of attention to detail and professionalism. Their team of seasoned professionals works tirelessly to ensure that all needs are met with the highest degree of satisfaction. Bee Cave Drilling's dedication to service, coupled with over forty years of experience, allows them to consistently exceed client expectations.

Company Details

Website: beecavedrilling.com

Industry: Water Well Drilling and Services

Business Model: A direct-to-customer (B2C and B2B) service model providing a full range of water well services from initial consultation, permitting, and drilling to system installation, maintenance, and inspections. The company offers free estimates and financing options for residential projects.

Company Role: Service provider specializing in the design, drilling, installation, and maintenance of water wells and pumping systems.

Year Founded: 1980

Legal Entity Type: Inc

Main Address: 185 Angel Fire Rd., Dripping Springs, TX 78620

Other Locations: 4231 E Hwy 29, Burnet, TX 78611

Service Locations: Texas Hill Country, Dripping Springs, TX, Burnet, TX

Alt Company Names: Bee Cave Drilling Inc

Pitch

As a family-owned and operated company since 1980, Bee Cave Drilling is dedicated to providing high-quality water wells with professionalism and excellence for the Texas Hill Country. We don't just build a system to collect a check; we take the time to do the job right, using only the best products and techniques to ensure you have a superior and reliable water source. Our in-house project managers guide you through every step, from permitting to final hookup, offering a smooth and transparent experience with clear pricing and financing options. With a reputation built on honesty, hard work, and fair prices, we are ready to earn your business and serve all your water well needs.

Market & Customers

Buyers: Residential homeowners, Commercial clients, Agricultural clients, Public/Community entities, Contractors

Customer Needs: Customers need a dependable, high-quality water well system to provide a safe and consistent water supply for their home, business, or agricultural operations. They want a hassle-free process managed by experienced professionals who can navigate geological challenges, permitting, and compliance. Customers are looking for clear, upfront pricing without surprises, as well as flexible financing options to make the investment more manageable. Ultimately, they need peace of mind that their well is constructed correctly and will be supported by reliable maintenance and repair services for years to come.

Ideal Persona: The ideal customer is a residential or commercial property owner located within the Texas Hill Country, including areas like Dripping Springs and Burnet. This individual or business may be building a new home,

managing a ranch, or require a reliable water source for agricultural or industrial purposes. They value experience, professionalism, and a company with a long-standing positive reputation in the community. The customer is looking for a transparent, end-to-end service that covers everything from initial assessment and permitting to drilling and ongoing maintenance.

Industry Groupings: Water Drilling, Pumping Systems, Well Inspections, Well Maintenance, Public Supply Wells, Well Plugging

Channels: Direct Sales (via website forms and phone calls)

Funnels: Free Estimate/Quote Forms, Service Request Forms, Well Inspection Scheduling, Newsletter Signup, Promotional Offers (e.g., Fall Water Well Savings), Financing Options (through Regions Bank and NGWA), Educational Content (FAQs, Videos, Articles)

CTAs: Contact Request, Get an Estimate, Schedule My Inspection, CALL 512.273.7389 TODAY TO GET STARTED, GET MY FREE QUOTE, Get My Payment Options, Talk to a Project Manager, Request an Estimate, Apply Now

Suppliers: National Ground Water Association (NGWA), Regions Bank

Branding & Style

Writing Style: Professional, informative, and customer-centric. The tone is confident and reassuring, aiming to build trust by highlighting extensive experience (over 40 years), family-owned values, and expertise. The language is clear and direct, with strong calls to action like "Get A Free Estimate" and "Schedule My Inspection." It balances technical terms related to well drilling with accessible explanations, catering to both homeowners and commercial contractors. The content is well-structured with FAQs, testimonials, and clear service descriptions to educate and guide potential clients.

Art Style: The image features a minimalist and rustic design aesthetic, dominated by a dark green background and black and white elements. The composition is horizontally balanced, with a stylized windmill graphic on the left contrasting with stacked typography on the right. The typography utilizes a classic serif font for the main company name, "Bee Cave Drilling," underscored by a thin line, while the location and establishment date are presented in a simpler, slightly more casual sans-serif font, contributing to an overall grounded and established design language.

A repairman for Bee Cave Drilling who was praised by a customer as being fantastic, knowledgeable, and personable.

Offerings

Cathodic Protection (Service)

Features: Provides corrosion control for critical metal infrastructure related to the well system.

Installation of cathodic protection systems to prevent corrosion of metal well casings and components, thereby extending the lifespan of the well.

Pricing: Per Project

Pressure Cementing (Service)

Features: Secures the well casing and provides superior well integrity, allowing for drilling closer to property lines or septic systems under state regulations.

A specialized technique that involves pressure cementing the space between the outside of the casing and the borehole wall to protect the well and groundwater.

Pricing: Per Project

Groundwater Availability Studies (Service)

Features: Utilizes data from neighboring well logs and public geological databases to inform project planning.

Data-driven analysis to assist in well siting and planning. This research helps set expectations for well depth, casing requirements, and potential water yield before drilling begins.

Pricing: Per Project

Well Plugging & Decommissioning (Service)

Features: Safe and compliant plugging of abandoned wells to protect groundwater and meet all regulatory standards.

Professional service to decommission old or abandoned wells. This process is critical for protecting local groundwater resources from potential contamination.

Pricing: Per Project

Solar Pumping Systems (System Installation)

Features: Ideal for remote ranch and off-grid applications where running power isn't practical. Typically paired with a storage tank system for consistent water access.

Installation of solar-powered pumping systems. This is an efficient solution for properties without easy access to the electrical grid or for those who prefer a renewable energy source.

Pricing: Free Estimate

Irrigation & Industrial Wells (Service)

Features: High-output systems specifically engineered for reliability and large-scale water demands.

Design and drilling of water wells for agricultural and industrial applications. These systems are built to provide the high volume of water required for irrigation and other industrial processes.

Pricing: Per Project

Residential Financing (Financial Service)

Features: Offers \$0 down options, low monthly payments, and a fast, easy application process. Options include same-as-cash loans and fixed-rate installment loans.

Flexible financing options for residential customers through a partnership with the National Ground Water Association (NGWA) and Regions Bank. Allows homeowners to drill a new well or upgrade a system without the full upfront cost.

Pricing: Loan terms vary (e.g., 9.99% APR)

Public Supply Wells (Service)

Features: Scalable solutions that meet rigorous local and state health and environmental standards for community water systems.

Specializes in designing, drilling, and maintaining public supply wells for larger communities. These systems provide safe and sustainable water solutions.

Pricing: Per Project

Water Well Service & Repair (Service)

Features: Skilled technicians handle a wide range of repairs, from minor issues to complex challenges, to minimize disruptions to your water supply.

Comprehensive repair services for existing water wells. The company diagnoses and resolves problems to promptly restore the well's functionality.

Pricing: Per Service Call

Well Maintenance (Service)

Features: Preventative care, ongoing inspections, yield checks, and wellhead service to keep the system in peak condition and prevent costly repairs.

Customizable well maintenance contracts designed to ensure the longevity and optimal performance of a water well. Regular maintenance provides peace of mind and safeguards the water supply.

Pricing: Maintenance Contracts

Well Inspections (Service)

Features: Includes assessment of well condition, flow rate testing, and a 30-minute pump test to check for performance issues. Optional water quality testing is available.

Professional, unbiased well inspections for homeowners and real estate transactions. Provides a clear report on the well system's condition, safety, and performance, along with recommendations for any needed repairs.

Pricing: Per Inspection

Pumping Systems (System Installation)

Features: Installation of four main system types; Standard Pressure, Constant Pressure (VFD), Well + Storage Tank, and Solar Pumping Systems for off-grid needs.

Engineering and installation of customized water pumping systems to ensure a steady and consistent flow of water from a well. Systems are designed to meet specific water needs for homes, ranches, and other properties.

Pricing: Free Estimate

Water Well Drilling (Service)

Features: Precision drilling for residential, commercial, and agricultural purposes using modern rigs and methods like air hammer, air rotary, and mud rotary.

Comprehensive water well drilling services managed from permitting to final hookup. The company researches site geology and tests water quality to ensure a high-quality, reliable well system. Services cover new wells, irrigation systems, and public supply wells.

Pricing: Free Estimate / Per Project

Elevation Group AZ

Overview

Elevation Group is a premier real estate team serving Scottsdale, Paradise Valley, Arcadia, and the Greater Phoenix area. The company has partnered with the Grigg's Group Powered by The Altman Brothers, combining over 50 years of experience and \$8.5B in career sales to redefine luxury real estate standards in Arizona. They specialize in assisting buyers and sellers of exceptional luxury homes, providing expert guidance and personalized service. With a network of luxury buyers, including entertainers and athletes, the team focuses on marketing iconic properties and delivering proven results for their clients.

Company Details

Website: elevationgroupaz.com

Industry: Real Estate

Business Model: A real estate team that assists buyers and sellers of luxury homes, providing professional service and representation. The group has partnered with the Grigg's Group Powered by The Altman Brothers to leverage a network of luxury buyers.

Company Role: Real Estate Brokerage

Service Locations: Scottsdale, Paradise Valley, Arcadia, Phoenix, Greater Phoenix area, Cave Creek, Queen Creek, Gilbert, Catalina Foothills, Fountain Hills, Chandler, Litchfield Park, Oro Valley, Marana, Tucson area, Maricopa County

Alt Company Names: Elevation Group

Pitch

Elevation Group is Arizona's premier real estate team, dedicated to assisting buyers and sellers of exceptional luxury homes with integrity, courtesy, and gratitude. Through our powerful partnership with the Grigg's Group and The Altman Brothers, we bring over 50 years of experience and a robust network to redefine real estate standards. We provide expert professional service and personalized guidance in desirable communities like Scottsdale, Paradise Valley, and Arcadia. Trust our team to deliver proven results and help you achieve exceptional real estate success.

Market & Customers

Buyers: Buyers and Sellers of Exceptional Luxury Homes, Entertainers, Athletes, High-net-worth individuals, Families, Professionals, Investors, Retirees, First-time home buyers, Relocating individuals

Customer Needs: Customers need a real estate agent with deep local expertise in Arizona's luxury markets, including pricing trends and neighborhood specifics. They want an agent with excellent communication and strong negotiation skills to secure the best possible deal in a competitive environment. Clients also need access to a robust network of trusted professionals, such as mortgage brokers and home inspectors, to facilitate a smooth process. Ultimately, they desire a trusted partner and advocate who can confidently guide them through the significant process of buying or selling a home.

Ideal Persona: The ideal customer is a high-net-worth individual, such as an entertainer, athlete, or professional, seeking to buy or sell luxury real estate in Arizona's most affluent communities. They are looking for premier properties like luxury estates, elegant homes, and exclusive listings in areas like Paradise Valley, Scottsdale, and Arcadia. This client values privacy, upscale amenities, and a sophisticated lifestyle. They require an experienced and trusted real estate professional who can provide expert guidance and personalized service.

Industry Groupings: Luxury Residential Real Estate, Buyer Representation, Seller Representation, Relocation Services

Industry Outlook: The Scottsdale real estate market has experienced rapid expansion, with a year-over-year gain of 27.6% and a median listing price of \$1.1 million. However, more recent analysis indicates the market is deteriorating at the fastest rate ever seen, with supply growing fast, demand weakening, and sales volumes in swift decline.

Channels: Website with property listings, Direct sales via real estate agents

Funnels: Content marketing (blog posts about local real estate markets, zip codes, and affluent neighborhoods), Video marketing (Vimeo property tours), Agent profile pages, Featured listings and recent sales galleries, Neighborhood guides

CTAs: Contact Us, Contact Now, View Listings, Call Now, Read Bio, Exclusive Property Listings

Branding & Style

Writing Style: The writing style is professional, authoritative, and aspirational, tailored to a luxury real estate market. It uses evocative and descriptive adjectives like 'luxurious,' 'stunning,' and 'masterpiece' in property listings to highlight high-end features. Informational content is presented in a clear, helpful, and expert tone, positioning the company as a knowledgeable guide. The overall voice is confident and client-focused, emphasizing experience, success, and personalized service.

Art Style: This image features a minimalist and elegant design aesthetic, dominated by a rich, dark green background contrasted with metallic gold elements. The composition is horizontally balanced, with a prominent mountain range graphic at the top and bold, sans-serif typography for "ELEVATION GROUP" centered below it. Further down, two distinct, geometrically styled logos for "GRIGG'S GROUP" and "THE ALTMAN BROTHERS" are separated by a vertical line, maintaining the same gold color scheme and a clean, modern design language.

A flexible type of permanent life insurance that offers adjustable premiums and death benefits to accommodate changes in your financial situation.

Pricing: Personalized Quote

Whole Life Insurance (Life Insurance)

Features: Offers lifetime coverage with a guaranteed death benefit and a cash value savings component that grows tax-deferred and can be borrowed against.

A form of permanent life insurance that provides coverage for your entire life. It includes a cash value component that accumulates over time.

Pricing: Personalized Quote

Term Life Insurance (Life Insurance)

Features: Affordable coverage for a specific period (e.g., 10, 20, or 30 years). Pays a death benefit if you die during the term. Provides life insurance coverage for a specific period of time. It's an affordable option designed to protect your family's financial security during critical years.

Pricing: Personalized Quote

Rental Insurance (Insurance)

Features: Covers property damage from perils, liability for tenant injuries, loss of rental income if the property becomes uninhabitable, and legal costs.

Protect your rental property investment with comprehensive landlord insurance. Policies provide coverage for the property structure, liability, and loss of rental income.

Pricing: Personalized Quote

Umbrella Insurance (Insurance)

Features: Provides an extra layer of liability protection, typically \$1 million to \$5 million, beyond the limits of your standard policies. Covers legal fees and court costs.

Add an additional layer of liability protection beyond the limits of your existing auto, home, or other policies. This coverage can protect your assets and future earnings from major lawsuits.

Pricing: Personalized Quote

Flood Insurance (Insurance)

Features: Provides coverage for your building structure and personal belongings against flood damage. Expertise in navigating NFIP and private flood insurance options.

Get specialized flood protection beyond standard homeowners insurance to guard against rising waters. Standard home policies do not cover flood damage, making this essential in Florida.

Pricing: Personalized Quote

Life Insurance (Insurance)

Features: Offers Term Life, Whole Life, Universal Life, Final Expense, and Group Life insurance options to provide a death benefit to beneficiaries.

Ensure your family's financial security with life insurance policies that provide peace of mind for the future. Policies provide financial security for your loved ones after you're gone.

Pricing: Personalized Quote

Business Insurance (Insurance)

Features: Options include General Liability, Property Coverage, Business Interruption, Professional Liability, Workers' Compensation, and Commercial Auto Insurance.

Safeguard your business operations with policies tailored to your industry's specific risks and challenges, including specialized coverage for the construction industry.

Pricing: Personalized Quote

Auto Insurance (Insurance)

Features: Includes liability, collision, comprehensive, uninsured motorist, personal injury protection (PIP), roadside assistance, and rental reimbursement.

Drive with confidence knowing you have reliable coverage for your vehicles, medical expenses, and potential liabilities in case of accidents, theft, or other unexpected events.

Pricing: Personalized Quote

Home Insurance (Insurance)

Features: Covers the structure of your home, personal belongings, liability, additional living expenses, and medical payments for guests injured on your property.

Protect your most valuable asset with comprehensive coverage for your house, personal belongings, and liability protection against events like fire, theft, and natural disasters.

Pricing: Personalized Quote

Luxury Homes Las Vegas

Overview

Luxury Estates International (LEI) is a boutique real estate brokerage specializing in marketing and selling Las Vegas' finest luxury homes, high rise condos, and penthouses. Founded by Kamran Zand, the company utilizes bold strategies based on style, global reach, and technology to attract affluent buyers. LEI provides exclusive insights and access to both on-and-off market properties. With a mission to deliver first-class customer service, the firm has achieved over a billion dollars in brokerage sales.

Company Details

Website: <https://luxuryhomeslasvegas.com/>

Industry: Luxury Real Estate

Business Model: A real estate brokerage that provides first-class customer service for buying and selling luxury properties, utilizing innovative marketing techniques to attract affluent buyers.

Company Role: A boutique real estate brokerage specializing in marketing and selling luxury homes, high rise condos, penthouses, and land.

Revenue: \$1B+

Main Address: 7945 W Sahara Avenue Suite 202

Service Locations: Las Vegas Valley, Nevada, The Strip, Las Vegas, Off-Strip, Las Vegas, South Strip, Las Vegas, Downtown Las Vegas, Summerlin, Las Vegas, Queensridge, Las Vegas, Henderson, Nevada

Alt Company Names: Luxury Estates International, LEI

Pitch

As a premier luxury real estate specialist, we deliver results by disregarding traditional methods in favor of bold strategies based on style, global reach, and technology. Our team provides exclusive insights that go beyond what you can find on the web, giving you access to both on-and-off market properties. We help you navigate the complexities of the luxury market with confidence and professionalism. Contact us to ensure you're making the right decision without the fear of missed opportunities.

Market & Customers

Buyers: Affluent domestic and international buyers, The rich and famous, Professional athletes, Chinese entrepreneurs, investors, and affluent property owners, High-end clients

Customer Needs: The customer needs an expert real estate professional who specializes in the luxury market to navigate the overwhelming buying process. They want access to exclusive on-and-off market opportunities to avoid missing out on the perfect property. The client desires a seamless, professional, and stress-free transaction handled by a knowledgeable and meticulous team. They require confidence and reassurance that they are making the right decision in a high-stakes market.

Ideal Persona: The ideal customer is an affluent individual, including the rich and famous, seeking to buy or sell Las Vegas's finest luxury homes, high-rise condos, or penthouses. They are often high-net-worth domestic or international clients looking for exclusive properties in premier communities like The Ridges, The Summit Club, or MacDonald Highlands. This persona values expertise, a global reach, and innovative marketing that showcases properties in the best light. They are astute shoppers looking for either a primary residence, a second home, or a promising investment opportunity.

Industry Groupings: Luxury Homes, High Rise Condos, Penthouses, Vacant Lots, Lake Frontage Homes, Golf Course Frontage, Equestrian Homes

Industry Outlook: Downtown Las Vegas property values are growing and the area is becoming increasingly popular. With the new 20,000-seat T-Mobile Arena, the city is prepared to accommodate new professional sports teams, which could further drive the luxury market.

Channels: Online website with property search, Direct sales via real estate professionals

Funnels: Social media marketing (Facebook, Instagram, Twitter, Snapchat), Property highlight videos, Partnerships with specialized companies (e.g., Caimeiju for Chinese market, SportStar Relocation for athletes), Company magazine (LEI Magazine), Press features in publications (e.g., Las Vegas Review Journal, Mansion Global), Company blog

CTAs: SEARCH, BOOK APPOINTMENT, FIND A HOME, SELL A HOME, CONTACT KAMRAN

Suppliers: Luxury Homes Photography, Caimeiju, SportStar Relocation (SSR)

Founding Story

Kamran Zand, a premier high-end real estate broker in the Las Vegas area, formed Luxury Estates International (LEI) because he recognized that marketing and selling luxury homes is not a business for novices. He founded LEI as an upscale organization of top real estate professionals specializing in luxury property. The vision was to become the luxury real estate brokerage of choice by delivering first-class customer service through commitment, vast knowledge, passion, and focus.

Branding & Style

Writing Style: The writing style is professional, sophisticated, and aspirational, tailored to a high-net-worth clientele. It uses evocative and luxurious language, with words like 'finest,' 'exquisite,' 'opulence,' and 'premier' to describe properties and the Las Vegas lifestyle. The tone is confident and expert, establishing the brokerage and its founder, Kamran Zand, as the leading authority in the high-end real estate market. The content is a mix of property marketing, market insights, press mentions, and community engagement, all curated to build a brand of exclusivity, success, and global reach.

Art Style: The image showcases a minimalist and sophisticated design aesthetic, characterized by a stark black background with a subtle textured finish. The typography features a clean, sans-serif font with "LUXURY" in a lighter gray and "ESTATES" in a contrasting white, indicating a focus on elegance and premium branding. The composition is centered, creating a balanced and professional visual language that emphasizes luxury and understated refinement.

Luxury Home Brokerage (Real Estate Brokerage Service)

Features: Access to exclusive communities like The Ridges, The Summit Club, and MacDonald Highlands. Personalized service from luxury specialist Kamran Zand and his team.

Specializing in the buying and selling of Las Vegas' finest luxury homes, estates, and mansions. Provides expert guidance through the process, from finding on-and-off market properties to closing the deal.

MoFlo

Overview

MoFlo provides a suite of AI-powered solutions designed for small and medium-sized businesses, aiming to make advanced technology accessible without enterprise-level complexity or cost. The company's mission is to level the playing field by offering affordable and effective AI tools that help businesses grow. Each solution can function as a standalone service or be integrated into a comprehensive growth system. MoFlo enables businesses to spend less time managing technology and more time focusing on their core operations.

Company Details

Website: moflo.ai

Industry: AI Software

Business Model: Subscription-based Software as a Service (SaaS) with monthly plans.

Company Role: Software as a Service (SaaS) Provider

Year Founded: 2025

Employee Count: 10

Main Address: Las Vegas, NV

Other Locations: San Francisco, CA, Hoboken, NJ

Service Locations: Global, United States

Pitch

MoFlo is the all-in-one AI Growth Platform designed to help your business show up everywhere, automatically. Our suite of apps works across all channels to attract and convert more customers, turning hours of tedious work into minutes. We believe small businesses deserve big business solutions without the big business price tag, making advanced AI simple, practical, and powerful. Let MoFlo take the work off your plate so you can spend less time on tech and more time growing what you love.

Market & Customers

Buyers: Small and medium-sized businesses (SMBs), Real Estate Professionals, High Tech Professionals, Trades & Services Companies, Franchise Operators, Professional Services Firms (Attorneys, Accountants, Financial Advisors, Consultants), Insurance Agents & Brokers, Construction Companies

Customer Needs: Customers want to save significant time on marketing and outreach activities, such as social media management, lead prospecting, and content creation. They need to generate a consistent flow of qualified leads, improve their online presence, and nurture client relationships to grow their business. They are looking for a simple, integrated platform that provides powerful automation tools without requiring technical expertise. Ultimately, they need an effective and affordable way to scale their operations and increase revenue.

Ideal Persona: MoFlo's ideal customer is a small or medium-sized business in industries like real estate, high tech, trades, franchises, professional services, or insurance. This customer is growth-oriented but lacks the time, budget, or technical expertise to manage complex marketing and sales operations effectively. They are looking for accessible, affordable, and easy-to-use AI solutions to automate repetitive tasks and streamline workflows. Their goal is to compete with larger enterprises by leveraging advanced technology without the associated high cost and complexity.

Industry Groupings: Real Estate, High Tech, Trades & Services, Franchises, Professional Services, Insurance, Construction

Channels: Direct Online Sales

Funnels: Website, Sales Team Demos, Content Marketing (Case Studies, Blogs), Webinars, Product Waitlists

CTAs: Start for free, Get a demo, Schedule a Demo, Contact Sales, Join the Waitlist Today

Founding Story

MoFlo was conceived in December 2024 when co-founders Nathan and Tristan observed that large companies captured nearly 90% of U.S. investments in AI, leaving small businesses with a fraction. This disparity sparked the idea to bring enterprise-grade AI tools to small businesses at an affordable price. With a mission to democratize AI, MoFlo was officially incorporated in Las Vegas, Nevada, in February 2025.

Branding & Style

Writing Style: Professional, direct, and benefit-driven. The language is clear and concise, using strong, action-oriented verbs to communicate value to small and medium-sized businesses. The tone is confident and empowering, focusing on solving specific industry challenges and delivering measurable results. The content is well-structured with headlines, bullet points, and FAQs to make information easily digestible and avoids overly technical jargon.

Art Style: This image features a clean, modern design with a dominant blue color palette, ranging from a deep indigo to a brighter sky blue, creating a gradient effect. The composition is minimalist, centered around bold, sans-serif typography for the main message "Multiply your output," with a smaller, lighter sans-serif font for the call to action "Start doing more today at MoFlo.ai." The overall aesthetic is professional and digital, with subtle graphic elements suggesting a sense of expansion or growth.

Offerings

Business Bundle (Package)

Features: Offers a discount for purchasing multiple MoFlo solutions. Enables customers to easily expand from a single solution to a full bundle as their business grows.

A discounted package for customers purchasing multiple MoFlo solutions. It allows businesses to combine various tools for maximum growth and integrated functionality at a better price point.

Pricing: Discounted bundle pricing

AI Solutions for Insurance Agents & Brokers (Industry Solution)

Features: Automates policy renewal campaigns, cross-selling optimization, and life event marketing using AI-powered communication and content tools.

A solution for insurance professionals to personalize outreach and automate policyholder communications. It aims to capture more quotes, retain clients, and free up producer time for high-value activities.

AI Solutions for Professional Services (Industry Solution)

Features: Generates practice-specific content, automates client intake, and distributes market insights for various professional fields like legal, accounting, and consulting.

A solution for professionals like attorneys, accountants, and consultants to streamline client communications, attract qualified leads, and showcase their expertise across multiple channels.

AI Solutions for Franchise Operators (Industry Solution)

Features: Manages new location launches, system-wide promotions, and franchisee recruitment with coordinated campaigns across the MoFlo product suite.

A solution to help franchise operators drive on-brand local marketing at scale. It streamlines franchisee communications and generates qualified leads for every location while maintaining brand consistency.

AI Solutions for Trades & Services Companies (Industry Solution)

Features: Manages seasonal business, new service area expansion, and emergency service promotion with tools for lead generation, content creation, and email marketing.

An AI solution for companies like HVAC and roofing to turn local demand into booked jobs. It focuses on automated follow-ups, review generation, and maintaining an always-on local presence.

AI Solutions for High Tech Professionals (Industry Solution)

Features: Supports new product launches, thought leadership positioning, and customer success showcases using the MoFlo suite of tools.

A solution for high-tech companies to scale content, ABM, and nurture programs. It helps win pipeline and establish thought leadership while managing customer acquisition costs.

AI Solutions for Real Estate Professionals (Industry Solution)

Features: Automates new listing launches, buyer lead conversion, and past client nurturing using a suite of integrated AI tools.

A tailored solution to help real estate agents automate outreach, listing follow-ups, and lead nurturing. It aims to win more appointments and convert buyers and sellers faster by saving time on marketing.

MoQuotes (Product)

A product offered as part of the MoFlo AI Growth Platform. Its specific function is not detailed in the provided text, but it is listed as one of the company's core product offerings.

MoClicks (Product)

Features: Focuses on website search engine optimization to increase visibility and drive organic traffic.

A product aimed at improving website search engine optimization (SEO). It is part of MoFlo's suite of AI tools designed to enhance online presence and attract more customers through better search visibility.

MoBlogs (Product)

Features: Generates compelling and practice-area specific content. Develops in-depth technical blog series, whitepapers, and case studies to establish thought leadership.

An AI-powered content generation tool for creating written content like blog posts, property descriptions, and technical whitepapers. It helps businesses showcase expertise and attract leads through quality content.

MoMail (Product)

Features: Sends targeted and personalized emails at scale. Creates automated post-service email sequences and nurtures leads through educational content.

An AI tool for email marketing and communication. It is used to send targeted promotional emails, personalized alerts, and automated nurture sequences to clients and prospects to drive engagement.

MoLetters (Product)

Features: Performs daily market scans for opportunities, automatically pulls property research, and drafts personalized, branded letters ready to print and send.

An AI-powered outreach solution that automates personalized letter generation. It's designed for tasks like real estate outreach for expired listings, turning hours of manual work into a quick daily process.

MoLeads (Product)

Features: Scans markets to identify target businesses and roles. Builds a database of verified contacts and decision-makers, delivering ready-to-use prospect lists.

An AI-powered prospecting solution that automates identifying and building accurate contact lists for ideal prospects. It allows sales teams to focus on selling rather than manual research.

MoSocial (Product)

Features: Generates high-quality, brand-aligned posts daily. Automates posting across all major social platforms and allows for quick review and approval in minutes.

An AI-powered social media engine that automates the creation, scheduling, and optimization of posts. It helps businesses stay active on every social platform, eliminating hours of planning, writing, and design.

Pricing: /month (after a 7-day free trial) — 149

MoFlo Cloud (Platform)

Features: Provides access to the entire suite of MoFlo solutions from a single platform. Designed for businesses without technical expertise and offers seamless integration.

An all-in-one AI platform for small business growth, integrating all of MoFlo's AI-powered apps into a single, unified experience. It's designed to be a fully integrated growth system for businesses without technical expertise.

Night Owl Monitoring

Overview

NightOwl Monitoring helps organizations manage their water well monitoring systems with confidence and precision by designing smart systems that connect water wells, tanks, and pumps through real-time data, alerts, and control features. Their expertise in remote water level monitoring helps communities, industries, and agricultural users protect resources, reduce waste, and operate more efficiently. The company focuses on improving system reliability, preventing downtime, and supporting environmental sustainability through intelligent monitoring. NightOwl's technology delivers real-time visibility and control for water wells, storage tanks, and pumping systems, allowing management from anywhere.

Company Details

Website: nightowlmonitoring.com

Industry: Water Well Monitoring and Control Systems

Business Model: Sells monitoring systems and partners with service providers, such as well drillers, to offer monitoring solutions to end-customers, enabling partners to build recurring revenue.

Company Role: Provider of smart water well monitoring and control systems, including hardware (sensors) and software (cloud dashboards, mobile app), to deliver real-time visibility, reliability, and control for water wells, storage tanks, and pumping systems.

Service Locations: Texas Panhandle, Canyon-Amarillo area, Texas, Salinas Valley, California, San Marcos, Texas

Alt Company Names: NOM

Pitch

NightOwl Monitoring delivers smart, real-time visibility and control over your water well, tanks, and pumping systems, allowing you to manage your operations from anywhere. Our easy-to-install systems provide instant notifications for critical events like pump failures or low water levels, helping you prevent costly repairs and avoid unexpected downtime. By transforming well management from reactive to proactive, our platform helps you protect your investment, ensure a reliable water supply, and operate more efficiently. With NightOwl, you gain the insight and peace of mind needed to safeguard your most critical resource.

Market & Customers

Buyers: Well Drillers and Service Companies, Homeowners with private wells, Agricultural operations, Commercial and Industrial facilities, Community water systems, Water and Wastewater Utilities, Property managers, System Integrators

Customer Needs: Customers need to prevent costly and disruptive well system failures, such as pump burnout, unexpected outages, or running dry. They want a reliable and consistent water supply, stable water pressure, and the assurance that their water quality is protected. Customers desire early warnings for developing issues like leaks, abnormal pump cycling, or declining water levels to shift from a reactive to a proactive maintenance approach. Ultimately, they need a simple, easy-to-install solution that provides actionable data to manage their water system efficiently and extend the life of their equipment.

Ideal Persona: The ideal customer is either a water well professional, such as a driller or service manager, looking to modernize their business by offering proactive maintenance and building recurring revenue. Alternatively, the customer is an end-user like a homeowner, farmer, or facility manager who depends on a private well and wants to protect their critical water supply from unexpected failures. This customer values data-driven decisions, understands

the long-term benefit of investing in preventative technology, and seeks to avoid costly emergency repairs. They desire the peace of mind that comes from real-time visibility into their water system's health.

Industry Groupings: Water Well Drilling and Service, Groundwater Management, Rural Water Systems, Municipal Water Supply, Agricultural Irrigation, Water and Wastewater Utilities

Channels: Direct sales via website, B2B partnerships with well professionals (drillers, service companies)

Funnels: Content Marketing (Blog), Lead Generation Forms (Contact Us, Subscribe), Demo Dashboard, Testimonials and Case Studies, Partnership Program for Well Drillers, Industry Trade Shows and Events

CTAs: Partner With Us, Click Here, Learn More, Contact Us, Submit, Access the Demo Dashboard, Read More, Schedule your demo

Branding & Style

Writing Style: The writing style is educational, authoritative, and solutions-oriented. It primarily uses a problem-solution framework, addressing common pain points of well owners (e.g., low pressure, contamination, pump failure) and positioning Night Owl's monitoring technology as a proactive, preventative solution. The tone is professional yet accessible, explaining technical concepts like 'static water level' in simple terms for homeowners while also providing details relevant to industry professionals like well drillers. Articles are well-structured with clear headings, bullet points, and FAQ sections to enhance readability. The content consistently establishes credibility by attributing articles to the CEO, an industry veteran, and concludes with a strong call-to-action aimed at professional partners.

Art Style: The image features a modern, digital aesthetic with a gradient background transitioning from a deep indigo on the left to a vibrant cyan on the right, suggesting a technological or futuristic theme. The typography is bold, sans-serif, and slightly stylized with a subtle futuristic slant, emphasizing clarity and impact. The composition is simple and direct, with the white text centered to maximize readability against the contrasting background, embodying a clean and functional design language often seen in tech branding.

Key People

Jim Blair — CEO & Co-Founder

Male

Over 30 years as a water well driller and industry innovator. He has deep knowledge of drilling, pump systems, and the operational challenges of rural and municipal water supply. Jim pioneered the integration of monitoring and control technologies into well operations, creating solutions that increase stability and long-term value for service companies.

Chris Sosnowski — Founder and CEO

Male

As the founder and CEO of Waterly, a data and asset management platform, he has over 30 years in water system management and thousands of SCADA installations. He was initially skeptical of NightOwl's "plug and play" claims but became a partner after testing the system on his private well and finding it to be the easiest installation he had ever experienced. He recommends the system for its affordability and effectiveness in both small and large applications.

Ryan Jefferson — General Manager and Lead Sales Engineer

Male

General Manager at Alsop and Muller Water Solutions, a company serving the Salinas Valley's agricultural community. With a background in heavy equipment management, he recognized the lack of real-time well health monitoring in the industry. He discovered NightOwl Monitoring at a convention and implemented their technology to transform his business from a reactive to a proactive model, helping customers validate power issues and prevent costly equipment failures.

Chad Patterson — Service Manager

Male

Service Manager for Currie Drilling, a fourth-generation drilling company in the Texas Panhandle. He is known for his detail-oriented approach and building strong customer relationships. He adopted NightOwl Monitoring to shift from reactive repairs to proactive, preventative maintenance, allowing his team to identify issues before customers experience water outages.

Sean Trapp

Male

An employee at NightOwl Monitoring. He is mentioned as a key contact who engaged with potential partners like Chris Sosnowski of Waterly at a conference. Customer Chad Patterson of Currie Drilling also praised the great communication he had with Sean.

LeRoy McGrue — Director of Water Services, Empire Pump Corp.

Male

Director of Water Services at Empire Pump Corp. He provided a testimonial praising the NightOwl Monitoring team for delivering high-quality, custom-designed products on time and within budget. He considers them a reliable and indispensable partner due to their exceptional customer service and technical expertise.

Shane Curry — Owner

The current owner of Currie Drilling, a fourth-generation, family-owned water well drilling company serving the Texas Panhandle since 1941.

Gerard

An employee at NightOwl Monitoring mentioned alongside Sean Trapp as having initiated a conversation with Chris Sosnowski of Waterly at a National Rural Water Association conference.

Offerings

Continuing Education for Water Professionals (Educational Service)

Features: Provides training and educational sessions on remote monitoring technology and proactive water system management for industry professionals.

Led by industry experts like CEO Jim Blair, these sessions help well contractors stay current with technological advancements, supporting the adoption of modern, data-driven maintenance strategies.

Pricing: Event-based

Customizable Monitoring Solutions (Professional Service)

Features: Adapts the monitoring platform for unique commercial and agricultural applications, including complex systems like turbine wells.

NightOwl collaborates with clients to tailor monitoring systems to their specific operational needs. Unlike rigid, off-the-shelf products, the platform is flexible and can be configured to solve unique challenges.

Pricing: Custom Subscription

Residential Well Monitoring (Consumer Solution)

Features: An affordable, plug-and-play system for homeowners to monitor pump health, track water usage, and receive alerts about their private well.

Designed for single-home wells, this solution provides homeowners with the tools to manage their water supply with confidence. It helps prevent unexpected outages and costly pump damage through continuous monitoring.

Agricultural Well Monitoring Solutions (Industry Solution)

Features: Monitors turbine pumps, power quality, and oiling issues to prevent costly equipment failures and optimize water usage for farming operations.

Tailored monitoring solutions for the agricultural community to manage irrigation systems and high-capacity wells. The technology helps farmers improve pumping efficiency and reduce operational costs.

Well Driller Partnership Program (Partnership Program)

Features: Equips well drilling companies with monitoring technology to offer to their customers, creating recurring revenue and a competitive advantage.

A program designed for water well professionals to integrate NightOwl's advanced monitoring solutions into their service offerings. This helps them build stronger customer relationships through proactive maintenance.

Pricing: Partnership/Reseller Model

Remote System Control (Core Feature)

Features: Enables remote pump control, remote valve control, and remote power reset directly from the NightOwl app or dashboard.

Gives users full management of their water systems from anywhere. This feature allows for direct intervention to start or stop equipment, providing a powerful tool for remote troubleshooting and management.

Pricing: Included with monitoring service

Instant Notifications and Reporting (Core Feature)

Features: Delivers instant alerts for critical events like pump failures, abnormal usage, low tank levels, or power issues. Generates automated monthly reports.

Keeps users informed of their water system's status 24/7. The system sends immediate notifications via app, email, or text, enabling proactive responses to prevent problems from escalating.

Pricing: Included with monitoring service

Remote System Monitoring (Core Feature)

Features: Monitors a wide range of parameters including water levels, pump amperage/voltage, run time, water flow, water quality, and pump house conditions.

A comprehensive feature set that tracks the health and performance of the entire water well system. This data provides early warning signs of potential issues like leaks, pump strain, or declining water levels.

Pricing: Included with monitoring service

NightOwl Live Dashboard (Software Platform)

Features: A cloud-based platform to access real-time water levels, power usage, and equipment performance from any connected device.

An intuitive dashboard that provides users with accurate, real-time data to support fast and effective decisions. It allows for the management of one or multiple well systems, with a demo available for prospective users.

Pricing: Included with monitoring service

Smart Water Well Monitoring and Control System (Hardware & Software Solution)

Features: Provides real-time data, alerts, and remote control for wells, tanks, and pumps. Features easy, plug-and-play installation for both residential and commercial systems.

An advanced technology system that provides real-time visibility, reliability, and control over water wells, storage tanks, and pumping systems. It helps users manage their water operations from anywhere, preventing downtime and costly repairs.

Planet Orange

Overview

Planet Orange is an eco-friendly pest control company that has been locally owned and operated in the Bay Area for over 15 years. The company provides residential, commercial, and industrial pest and termite control solutions using people, pet, and environmentally friendly methods. They are dedicated to developing effective, sustainable solutions to create safe and healthy environments where people live, work, and play. Planet Orange emphasizes its use of low-toxicity products and has pioneered treatments like XT-2000 Orange Oil in Northern California.

Pitch

Planet Orange is your dedicated local partner for effective, eco-friendly pest control that is safe for you, your community, and the planet. We specialize in people-and-pet-friendly solutions for your home and workforce-friendly options for your business, ensuring your spaces are healthy and comfortable. Our state-licensed and highly trained technicians provide thorough inspections and customized treatment plans to eliminate pests and prevent future infestations. Trust Planet Orange to deliver quality, integrity, and transparency, backed by over 15 years of experience and multi-year warranties.

Market & Customers

Buyers: Residential Homeowners, Commercial Clients, Industrial Clients, Food Services (Restaurants & Cafeterias), Healthcare Facilities, Hotels, Multi-unit Dwellings, Public Properties, Large Venues (Levi's® Stadium, AT&T Park), Non-profits (The Red Cross), Nurseries (Fremont Children's Nursery)

Customer Needs: Customers need to effectively eliminate pests like termites, ants, rodents, and cockroaches from their residential or commercial properties. They want a solution that is not only successful in eradicating the infestation but is also safe for people, pets, and the environment. Customers are looking for peace of mind, which comes from knowing their property is protected from structural damage and their living or working spaces are healthy. They require trustworthy, professional service from licensed experts who can provide a thorough assessment and a customized, long-lasting treatment plan.

Ideal Persona: The ideal customer is a homeowner or business owner in California's Greater Bay Area who is experiencing a pest or termite problem. They are environmentally conscious and prioritize the safety of their family, pets, employees, and clients. This customer values professional, licensed, and experienced service providers who offer transparent and effective solutions. They are specifically looking for a reliable company that uses sustainable, eco-friendly, and low-toxicity methods to protect their property.

Branding & Style

Writing Style: The writing style is educational and authoritative, positioning the company as knowledgeable experts in entomology and pest control. It heavily emphasizes a commitment to 'eco-friendly,' 'green,' and 'least-toxic' solutions, making this a core part of their brand identity. The tone is professional yet accessible, aiming to inform and reassure customers by explaining the science behind pests and treatments. They build trust by highlighting their technicians' state-licensing, extensive training, and local expertise in the Bay Area. The content is customer-focused, with clear calls-to-action and a focus on providing customized, effective, and safe services for homes, businesses, families, and pets.

Art Style: The image features a bold, modern design aesthetic, dominated by a vibrant orange and yellow gradient globe that suggests energy and global reach. The composition is clean and centered, with the stylized globe placed above a sans-serif logotype for "planet orange." The typography is strong and contemporary, aligning with a digital or media-oriented brand identity.

Offerings

Spider Control (Pest Control Service)

Features: Manages common house spiders, wolf spiders, and sac spiders. Provides control for medically significant species like Black Widows.

Services to manage spider populations in and around homes. Addresses common and potentially venomous spiders, helping to reduce their presence and potential for bites.

Pricing: By Quote/Estimate

Cockroach Control (Pest Control Service)

Features: Targets common pest species in California. Addresses health risks like food poisoning and allergies. Focuses on dark, moist hiding spots.

Services to eliminate cockroach infestations. These pests can spread disease-causing germs and trigger allergic reactions, making professional control important for a healthy environment.

Pricing: By Quote/Estimate

Ant Control (Pest Control Service)

Features: Addresses the most common structural pest in California. Identifies ant species and colony location. Offers eco-friendly and synthetic options.

Eco-friendly and synthetic treatment plans for ant infestations. The service identifies the type of ants, where they are coming from, and how to control the population or eliminate the colony completely.

Pricing: By Quote/Estimate

Bed Bug Control (Pest Control Service)

Features: Targets secretive, blood-sucking insects. Addresses infestations in mattresses, furniture, and cracks near sleeping areas.

Treatment for eliminating bed bug infestations. These pests hide in areas close to their human food source, making professional treatment essential for complete removal.

Pricing: By Quote/Estimate

Rodent Control (Pest Control Service)

Features: Targets mice and rats. Focuses on non-rodenticide methods to protect pets and people. Addresses property damage and health risks.

Services to manage and eliminate rodent pests like rats and mice. Addresses risks of property damage from gnawing and health hazards from urine and droppings, without using harmful rodenticides.

Pricing: By Quote/Estimate

Mosquito Control (Pest Control Service)

Features: Barrier sprays for up to 3 weeks of control. Eco-friendly botanical treatments available. Service for special events like weddings and BBQs.

Services to minimize and repel mosquitoes for homes, businesses, and special events. Offers both synthetic barrier sprays for longer residual effect and eco-friendly botanical alternatives.

Pricing: By Quote/Estimate

Orange Oil Termite Treatment (XT-2000) (Termite Control Service)

Features: Low-toxicity, eco-friendly option. Primarily used for Drywood termites. A localized spot treatment process.

A low-toxicity termite treatment using XT-2000 Orange Oil. Planet Orange pioneered this method in Northern California as a localized treatment option, especially for Drywood termites.

Pricing: By Quote/Estimate

Subterranean Termite Treatment (Termite Control Service)

Features: Creates a protective barrier in the soil around the structure. Destroys existing mud tubes. Provides long-lasting protection for 5 to 10 years.

Treatment for Subterranean termites that live in the soil and travel to the structure. A barrier is created around the building's perimeter to eliminate any current or future termite infestation.

Pricing: By Quote/Estimate

Drywood Termite Treatment (Termite Control Service)

Features: Targets termites living within wood structures. Localized injection treatments. Complimentary check-up post-treatment to ensure eradication.

Specialized treatment for Drywood termites, which live solely in wood members. Involves injecting a product into infested areas to saturate the termite colony and prevent further spread.

Pricing: By Quote/Estimate

Termite Inspection (Inspection Service)

Features: Free of charge. Analysis of active infestations and structural damage. Provides recommendations for solutions. Performed by state-licensed inspectors.

A free, thorough inspection to determine the extent of a termite problem. Identifies termite types, colony locations, and wood damage, followed by a formal report with treatment options.

Pricing: Free Inspection — 0

Termite Control (Termite Control Service)

Features: Full structure inspection. Treats Drywood & Subterranean termites. Backed by a multi-year warranty with optional annual follow-ups.

Comprehensive termite extermination services for homes and businesses. Starts with a full inspection and provides several treatment options to prevent wood damage, backed by a multi-year warranty.

Pricing: By Quote/Estimate

Industrial Pest Control (Pest Control Service)

Features: Workforce-friendly solutions tailored for industrial settings.

Pest control services for industrial clients, focusing on solutions that are safe for the workforce and effective in large-scale environments.

Pricing: By Quote/Estimate

Commercial Pest Control (Pest Control Service)

Features: Workforce-friendly and environmentally conscious solutions. Protects brand, employees, and customers. Full assessment of business needs.

Sustainable and effective pest control for businesses of any size. Services are designed to be safe for employees and clients, protecting the business's brand and commitment to the planet.

Pricing: By Quote/Estimate

Residential Pest Control (Pest Control Service)

Features: People and pet-friendly solutions. Customized treatment plans for different micro-climates. Focus on least toxic, most effective methods.

Eco-friendly and effective pest control solutions for homes. Services are designed to eliminate current infestations and prevent future flare-ups while being safe for families and pets.

Pricing: By Quote/Estimate
